

NOTES FROM THE WORKBENCH

Cedar Mountain Mandolin Company
August 2019
Volume 1, Issue 1

Have you ever wondered where Cedar Mountain Mandolin Company got its name?

With a peak at almost 700 feet above sea level, Cedar Mountain is a small mountain in King County, Washington. It is the mountain right behind my shop and provides inspiration for design of my

instruments. There are bears, deer, eagles, ducks, geese, heron, and a host of other beautiful animals on any given day and lots and lots of Cedar trees. At the base of Cedar Mountain sits Lake Desire to the west and Spring Lake to the east. Both lakes have a breathtaking view of Mount Rainer.

Quiet inspiration comes from the environment outside the shop.

What's on the bench?

Currently I am working on a new design for my F5 mandolins. The new version will be slightly longer, the bridge has been moved, and there is a change to the arching of the instrument to improve volume, tone, and resonance.

If you like our A style, you will love our new F!!

Recent events:

Vancouver International Guitar Festival was a huge success! We met lots of nice folks and added to our CMM family of musicians.

Our favorite part: The spontaneous Irish session in front of our booth with three of our instruments being played. The crowd loved it!

CALENDAR OF EVENTS

Upcoming events

August 2019

Mike Marshall Mandolin Summit

February 2020

Wintergrass Festival

April 2020

Tacoma Guitar Festival

What's on Gary's Playlist?

1. Next Train South
Po' Ramblin' Boys
